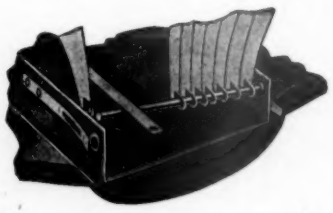
Keep Your Standard Size Field Artillery Journals for Constant Reference Both Now and Later

Here is a sturdy binder that will hold all 12 issues of your JOURNAL. Copies are held in place by a thin flat wire strip, spaced according to thickness, which allows each copy to be read clear back to the binding margin.



This binder is made of strong washable imitation leather, in traditional artillery color. *The Field Artillery Journal* is lettered in gold across the upper part of the front cover and on the back edge. The Field Artillery crossed-cannons are in gold on the lower front cover.

☆

$5, subject to discount, as noted on inside back cover.
